## Sunscreen and Bug Spray Policies

Ultraviolet rays (UVA and UVB) are known to cause sun tan, sun burn, and skin damage. There is no “safe” UV light. Protecting young people from the sun is especially important, as most of our lifetime sun exposure comes before the age of 20. YMCA Camp participants spend a great deal of time outdoors, thus being exposed to the sun’s harmful rays. Since it is our policy to promote healthy spirits, minds, and bodies, we have made the following policies with this in mind.

All campers and staff will wear sunscreen with an SPF of at least 15 on all exposed skin (including lips) daily. **EVEN ON CLOUDY DAYS.**

- Parents and guardians will be responsible for application of first layer of sunscreen/bug spray prior to AM drop-off.
- Parents/guardians will be responsible for providing enough sunscreen/bug spray (clearly labeled with child’s name) for several applications throughout the day.
- YMCA staff will be responsible for ensuring follow-up applications after 1 hour in the water, two hours in outdoor activity, and any time as needed.
- Campers with fair skin, freckles, numerous moles, blond/red/light brown hair, and blue/grey/green eyes tend to burn easily, tan little or not at all, and have a family history of skin cancer. We recommend an extra shirt be brought to wear in the water for extra protection.
- Please note that YMCA staff will aid children as needed in application of sunscreen and bug spray. Please explain this to your child(ren) prior to attendance.
- The YMCA reserves the right to disallow participation in any YMCA program at any time for failure to comply with this policy.
- Please note these policies were made to protect your child. Furthermore, our staff has been trained on these policies and understands their responsibilities and the consequences for failure to observe these policies.
